COUNTY COMMISSIONERS

December 12,2002

Board of Kootenai County Commissioners Honorable Dick Panabaker, Chairman 451 Government Way Coeur d'Alene ID 83814

#### RE: Issuance of License for Airport Unicorn

Dear Honorable Chairman and Commissioners:

We are informed that the Board of County Commissioners is involved in proceedings before the Federal Communications Commission to determine the appropriate licensee of the Unicorn frequency at the Coeur d'Alene Airport. It is also our understanding that this determination will be made, and properly should be made, with due consideration to the competent delivery of services and paramount concerns for airport safety.

We, the undersigned members of the Coeur d'Alene Airport Pilots Association strongly recommend that the Coeur d'Alene Unicorn frequency be exclusively licensed to and managed by the County of Kootenai and its elected and appointed officials.

As licensed pilots, our recommendation is motivated solely by our interest in aviation safety, and our concern that competing private airport businesses operating the Unicorn system would focus on the economic benefit as opposed to efficiency and safety.

Thank you in advance for your consideration. We at the Pilots Association are very proud of our principles of the pilots and the quality of its operation.

Very Truly Yours,

HARLES LEMPESI
